

Active Sussex Crawley Workforce Project

- Due to the significant impact of Covid-19 in Crawley and existing inequalities, Active Sussex have decided to commit funding to develop the Crawley sport & physical activity workforce.
- The aim of the **Crawley Workforce Project** is to **upskill the workforce** to increase confidence and competence **to engage inactive participants and target groups.**
- Upscaling delivery and learning from the [Active Sussex Workforce Investment Fund](#).
- ‘Person like me’ approach to workforce development.

Crawley Workforce Project

- After gathering insight from local partners in Crawley, it was decided a **mixture of core course delivery and targeted small grants programme** would be the most effective use of the funding for the project.
- The core course delivery will be open to the wider Crawley workforce.
- Small grants programme will be a targeted approach for those working with target groups.

Core Course Delivery

- Over the coming months, a number of core courses will be facilitated for the Crawley sport and physical activity workforce to access.
- Those that access the training courses will be **required to provide feedback** on how the training has helped them and **how it has improved their ability to engage inactive participants or target groups**.
- Courses will be informed by the training needs survey below.

Please complete the [Crawley Workforce Training & Support Needs Survey](#) and share via your networks.

Small Grants Programme

- Grants are available for amounts between **£100 and £600**.
- Groups/clubs/organisations/individuals can apply for more than £600 if they have a particularly strong or innovative idea for the use of their grant.
- The funding can be used towards obtaining qualifications or accessing training that can help **encourage and support inactive people to be active**.
- This can be for a **coach, instructor, volunteer or participant**.
- Must **complete the Expression of Interest Form** to apply.
- Grant recipients will be asked for feedback and may be selected for a case study.

Active Sussex are open to innovative ideas and approaches so please get in contact if you have an idea you would like to discuss.

Small Grants Programme

Funding should be used to develop and train recipients to address inactivity in the following priority groups:

- Older people
- People with disabilities or long term health conditions
- People from Black or South Asian communities
- People from lower socio-economic groups
- Target groups with higher rates of inactivity

Please complete the [Expression of Interest \(EOI\) Form](#) to apply for a small grant.
